

SCADA TOKEN VAULT - USER GUIDE

Secure Token Locking on PulseChain

1. WHAT IS TOKEN VAULT?

A trustless smart contract system for time-locking PRC-20 tokens. You deploy your own vault contract, maintaining full ownership. Lock tokens for 1 day to 10 years (up to 100 locks per vault). Only you can unlock when the time expires.

2. KEY FEATURES

Self-Custody	You own the vault contract
Any Token	Lock PRC-20 or LP tokens
Flexible	1 day to 10 years duration
Multiple Locks	Up to 100 per vault
Transparent	All data on-chain

3. CREATE A VAULT

1) Click '+ CREATE VAULT' • 2) Enter vault name • 3) Paste token address • 4) Approve transaction (~50K PLS fee) • 5) Vault appears in list

4. LOCK TOKENS

1) Click 'VIEW DETAILS' on vault • 2) Enter amount and duration (days) • 3) Click 'Create Lock' • 4) Approve token transfer • 5) Confirm transaction

■ **WARNING: Tokens CANNOT be unlocked early. No exceptions. Immutable smart contract.**

5. UNLOCK TOKENS

When lock expires, status shows 'READY'. Click 'UNLOCK' to retrieve tokens. Only vault owner can unlock.

LOCKED	Not expired yet
READY	Can unlock now
RELEASED	Already unlocked

6. VAULT OWNERSHIP

You're the sole owner. Transfer ownership: 1) Click 'Transfer Ownership' • 2) Enter new address • 3) Sign with current wallet • 4) Switch to new wallet • 5) Click 'ACCEPT OWNERSHIP' • 6) Confirm

7. CHECK ANY VAULT

Use 'CHECK VAULT' to view anyone's vault by pasting the address. Useful for verifying team locks or LP commitments. Read-only if not your vault.

8. GLOBAL STATISTICS

Shows total SCADA locked across all vaults and weighted average duration. Weighted = considers lock amounts, not just count.

9. SAFETY TIPS

- Double-check addresses
- Test small amounts first
- Verify duration
- Use hardware wallet
- Save vault addresses
- NEVER send tokens directly to contract
- NEVER lock tokens you need soon

10. FAQ

Can I unlock early? No. Tokens stay locked until date expires.

Can SCADA team access my tokens? No. Only you control your vault.

What if I lose wallet? You lose vault access permanently.

Max duration? 3,650 days (10 years).

What tokens? Any PRC-20 or LP token on PulseChain.
